## Message

### from the CEO

*Dear valued clients and colleagues,*

While the world is facing an unprecedented situation, we have all had to learn to manage our lives and businesses differently. We, like everyone else have felt the impact the coronavirus has had and want to express our deepest condolences to those who have lost loved ones. Our thoughts and prayers go out to everyone who has been impacted by the virus and thank all healthcare workers and essential service employees everywhere.

We take the safety of our employees seriously and managed through this pandemic by working from home, staggering hours and social distancing. I personally want to thank all employees for their dedication and assistance throughout this crisis. I am thankful we were able to keep our employees working safely while we delivered uninterrupted service and to our clients.

Although this crisis has been challenging and while many things have changed in our world, we have stayed positive and we are moving ahead with long term plans and hope that the rest of the industry will as well. We are very thankful to currently be involved in major projects that we will be able to announce in the near future. We feel very optimistic about the future of our industry and our company. We would like to hear from you and our lines are open for discussions, conference calls, strategic meetings and joint ventures.

*We wish everyone continued good health for the future.  
Please stay safe.*

Yours truly,

Luciano Calenti
