From Molecule To Market  
With Innovation

### **Analyst – Pharmaceutical Division**

ACIC is seeking an experienced Analyst to support our pharmaceutical team. This role is suited for a detail-oriented professional with at least 3 years of pharma industry experience.

In this role, you will focus on analyzing both marketed and in-development molecules within the branded, generic, and biologics sectors.

#### **Qualifications:**

- 3+ years of experience in the pharmaceutical industry
- Strong analytical skills
